## Brado components

PERCHÉ PER COMPORRE DAVVERO SERVONO MELODIA, ARMONIA, RITMO. [A COMPOSITION REQUIRES MELODY, HARMONY AND RHYTHM.]

I componenti da seduta BRADO sono **elementi di altissima qualità**, progettati, prodotti e selezionati dall'azienda.

Il **know-how** più che trentennale, costantemente implementato, si intreccia allo zampillare di **intuizioni** sempre nuove. Da ciò scaturisce una libertà che è fatta di **rigore**, severa verifica delle soluzioni tecniche; ma anche di **freschezza**, felicità della ricerca formale.

Un mix che rende unico ogni singolo componente BRADO: senza parlare delle brillanti combinazioni che dal loro incontro è possibile ottenere. [*Brado seat components are composed of **high-quality elements**, designed, produced and selected by the company.*

*More than thirty years of industry experience and formal research is weaved together with our ever changing **insight** into the latest designs and technical solutions. From this a sense of **freedom and freshness** has been developed resulting in unique and brilliant components for the discerning client.*

## MELODIA [MELODY]

Melodia è lo spunto, il tema da cui tutto ha inizio. La **scintilla** che occorre alimentare in modo giusto affinché non si spenga e anzi si sviluppi, prenda corpo, regalando luce all'intero progetto.

Una buona idea merita questo e molto altro: tutta la **passione** di chi sa che lavorare non deve diventare routine, ma implica sorpresa, gioco, divertimento. *[Melody is the cue, the theme from which everything stems. Once the **spark** has been ignited the flame continues to grow, taking on its own form and shining a guiding light over the entire project.]*

*A good idea deserves **passion** and ideas flourish and surprise in a positive and creative environment.]*

## ARMONIA [HARMONY]

Base e fondamento della componentistica BRADO, il sistema produttivo basato su una solidissima **esperienza**. La tecnica acquisita sul campo nella risoluzione di problematiche differenti, apre la possibilità di creare con la massima esattezza ciò che è stato immaginato.

Una seduta BRADO è in grado di **prendere ogni forma** perché i suoi realizzatori sanno superare qualsiasi ostacolo di natura tecnica. *[The basis and foundation of BRADO components; a production system based on solid **experience**. Our "know-how" in the production field provides the opportunity to create what could once, only be imagined.]*

*Brado seats can **take on any form**. We can overcome technical obstacles to deliver the product you desire.]*

## RITMO [RHYTHM]

Vivace sostegno all'intreccio tra melodia e armonia, è il dinamismo della BRADO FACTORY. Qui si trova il vero **"cuore pulsante" dell'azienda**, fulcro che collega la creatività alla produzione, per giungere con la massima efficacia sino alle richieste del mercato.

Un laboratorio di ricerca, esperimento, confronto nel quale ogni giorno nascono **ipotesi** originali, si testano **materiali** innovativi, si studiano **soluzioni** di avanguardia. E dove si lavora anche a stretto contatto con il Cliente per realizzare componentistica **su misura**, espressamente dedicata.

Ecco perché BRADO è sempre al passo; e, anzi, spesso procede ad un ritmo che **anticipa i tempi**. *[The dynamism of the BRADO FACTORY is the link that intertwines our*

*melody and harmony. This is the **true "beating heart" of the company**. Creativity and production, are linked to meet market demand with maximum efficiency.*

*Groundbreaking and unique **concepts** are created every day in our research and experimentation lab. Innovative **materials** are tested and cutting-edge **solutions** analysed. This is the hub where we work alongside our customers in order to implement specifically customised **tailor-cut** components.*

*BRADO is always to the forefront. Its rhythm is often **ahead of its time**.]*

## LA SEDUTA HA INIZIO [TAKE A SEAT]

Come immaginate debba essere la vostra personale seduta? Selezionate i componenti che vi servono, e preparatevi ad assemblare il **vostro successo**. *[How do you imagine your personal seat? Select the components you require and prepare to assemble **success**.]*

## LA SEDUTA È TERMINATA [IT'S READY]

Terminata, ossia già pronta. Oltre ai componenti singoli, infatti, BRADO propone **kit completi, subito pronti per l'assemblaggio**. Una serie di sedute da scegliere fra tante collezioni, differenti per stile e ispirazione. *[Besides single components, BRADO offers **complete ready to assemble kits**. With a series of seats to choose from our many stylish and inspirational collections, you can be guaranteed a unique and innovative product.]*

Brado: l'ambiente è protetto  
[*Brado: defends the environment*]

## AMBIENTE [ENVIRONMENT]

Prodotti innovativi che sappiano tener conto della salute ambientale e dell'uomo [Innovative products that keep into account both human and environmental safety]

## MATERIALI [MATERIALS]

Utilizzo di materiali riciclati non inquinanti [Use of recycled and non-polluting materials]

## ECO-DESIGN [ECO-DESIGN]

Riduzione del numero di componenti, del peso e del volume. Imballi composti da materiali riciclati e riciclabili [Reduction of components, weight, and volume. Packaging made of recycled and recyclable materials]

## PRODUZIONE [PRODUCTION]

Riciclaggio e riduzione dei rifiuti. Uso di polimeri termoplastici hi-tech riciclabili. Uso di legni nel rispetto delle normative europee vigenti in materia di emissione di formaldeide da manufatti legnosi [Recycling and waste reduction. Use of high-tech recyclable thermoplastic polymers. Wood usage in full respect of the European regulations in force regarding formaldehyde emissions from wood-based products]

## TRASPORTO [DELIVERY]

Meno peso e meno volume dei prodotti realizzati consentono di consumare meno energia per il trasporto [The products' reduced weight and volume allow consuming less energy during transport]

## SMALTIMENTO [DRAINING]

Ogni singolo articolo plastico prodotto è marchiato per il riciclaggio, consentendo una rapida identificazione del tipo di materiale utilizzato [Each plastic item is marked for recycling, allowing for a quick identification of the type of material used]

POLIPROPILENE

POLIAMMIDE

POLICARBONATO

**SAVE THE FOREST®** components are manufactured using recycled raw materials recovered post-consumption

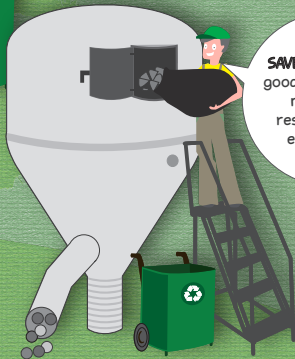

RECYCLING PROCESS

The **SAVE THE FOREST®** logo distinguishes those products which substitute wooden for plastic components

PRODUCTION PROCESS

**SAVE THE FOREST®** products are guaranteed through our controls and are in compliance with international quality standards

**SAVE THE FOREST®** goods are obtained maintaining respect for our environment

## NORMATIVA REACH [REACH REGULATION]

Brado produce articoli stampati in materiali plastici (Polipropilene, Polietilene, Poliammide, Polistirolo...) senza aggiunte di sostanze chimiche, acquistati nell'ambito della Comunità Europea. Brado è quindi esente dall'obbligo della registrazione presso l'ECHA (Agenzia Europea per le sostanze chimiche). Brado è impegnata nella sensibilizzazione dei propri fornitori affinché provvedano a effettuare le eventuali registrazioni di loro competenza. *[Brado produces printed items in plastic materials (Polypropylene, Polyethylene, Polyamide, Polystyrene...) purchased within the European Union without chemical add-ons. Therefore, Brado is exempt from the mandatory registration at the ECHA (European Agency for Chemical Substances). Brado is focused on the education of its suppliers so that they can apply for any registration that may applicable to them]*

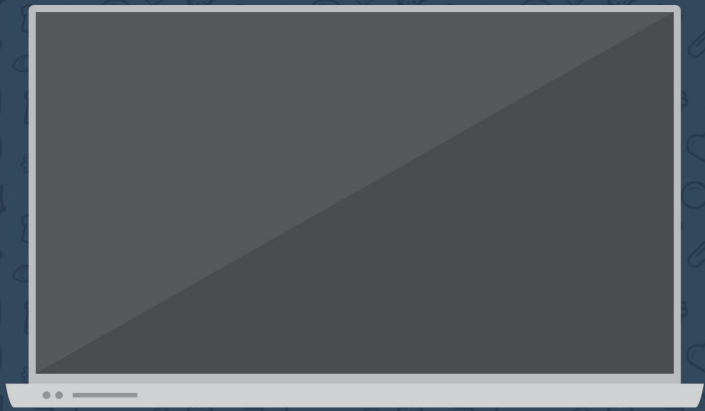

## SALVARE GLI ALBERI [SAVE THE FOREST]

Il marchio 'Save the forest' identifica articoli realizzati con tecnologie a basso impatto ambientale e l'utilizzo di polipropilene interamente riciclato e riciclabile *[The 'Save the forest' logo identifies all the items that are manufactured with low environmental impact technologies and the use of polypropylene that is fully recycled and recyclable]*
