## Fittings for furniture

Edizione 2017 - Revisione n° 21  
Edition 2017 - Revision nr. 21

A più di sessant'anni dalla sua fondazione, IVARS si pone oggi come una realtà produttiva di forte immagine sui mercati nazionali ed esteri.

Con una dedizione costante al lavoro, divenuta nel tempo filosofia di vita per gli uomini che vi lavorano, con una gestione da sempre oculata, con una forte propensione all'innovazione ed all'internazionalizzazione, IVARS ha saputo costruirsi nel tempo un ruolo di leadership indiscussa sul proprio mercato.

Grande attenzione è stata dedicata al continuo miglioramento dei processi aziendali e all'implementazione delle procedure interne; i nostri bilanci sono sottoposti a revisione contabile dal 1996 mentre i nostri prodotti hanno ottenuto dal 2000 la Certificazione di Qualità **UNI EN ISO 9001:2008**.

Per IVARS i traguardi raggiunti rappresentano solo il punto da cui ripartire. Questo significherà per IVARS investire su processi di produzione interni sempre più automatizzati ed efficienti, ma soprattutto di investire nella ricerca e nello sviluppo di prodotti di "alta gamma" che richiedono spesso la sperimentazione e l'impiego di nuovi materiali. In questa logica, il centro "studi e progettazione" aziendale continua a lavorare per la ricerca di nuovi prodotti, di nuove soluzioni tecniche ed estetiche, e sul miglioramento funzionale della produzione in atto.

Siamo consapevoli che essere innovativi oggi significa poter guidare l'evoluzione del domani.

*Sixty years after its foundation, IVARS is now a manufacturer company with a strong image in Italy and abroad.*

*With unwavering devotion to its work, which has gradually become a way of life for its employees, prudent management and a strong vocation for innovation and global expansion, over time IVARS has established itself as the undisputed leader of its market.*

*Great attention has been devoted to making constant improvements to company processes and implementing internal procedures; our accounts have been audited since 1996, while in 2000, our products obtained the quality certification UNI EN ISO 9001:2008.*

*For IVARS, this will mean to invest in highly automated, efficient production processes, but most importantly, to invest*

*in the research and development of high-end products, which often require the testing and use of new materials.*

*Against this background, the company's design and study centre is continuing to research new products, new technical and aesthetic solutions, and to work on functional improvements to current products.*

*We know that being innovative today means having an ability to guide the evolution of the future.*
